Health Management <ul style="list-style-type: none"> • Health or disease problems • Pest control • Physical alterations 	<input type="checkbox"/>	<input type="checkbox"/>	
Record keeping	<input type="checkbox"/>	<input type="checkbox"/>	
Slaughter	<input type="checkbox"/>	<input type="checkbox"/>	
Milk handling <ul style="list-style-type: none"> • Milk buyer 	<input type="checkbox"/>	<input type="checkbox"/>	
Egg Handling	<input type="checkbox"/>	<input type="checkbox"/>	
Monitoring	<input type="checkbox"/>	<input type="checkbox"/>	
Other:	<input type="checkbox"/>	<input type="checkbox"/>	

D. LIVESTOCK INPUT INVENTORY

Inputs used or planned for use in the current year are to be noted on the Livestock Input Inventory Update form. Include all feed supplements, additives, health, pest or disease inputs, and animal or egg cleaning products. Provide ingredients information for all products that are not OMRI listed or approved by MOSA in the previous year.

no health products used no changes to Livestock Input Inventory
Submit a Livestock Input Inventory Update form for new products.

Have any livestock been treated with antibiotics, parasiticides, or hormones since your last inspection? No
 Yes. List IDs, treatment given, reason and how treated livestock were segregated. List date of sale, if sold.

Return this form with the Farm Organic System Plan.
