## Wild Crop Organic System Plan

*This plan is to be submitted with the Farm Organic System Plan.*

### SECTION 1 General Information

<b>Name(s)</b>	<b>When do you anticipate having your wild crops ready for sale?</b>	<b>For Office Use</b>		
		Date Rec'd	Date Farm OSP Rec'd	Initials
<b>Do you understand current National Organic Standards and MOSA Program Manual requirements applicable to wild crop harvesting?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No (specify):				

### SECTION 2 General Description NOS §§205.201, .272

**A. Describe all organic and non-organic wild crop harvesting areas on your Field Plan, identifying them as uncultivated wild crops (there will be no seeds or inputs). Areas listed below must be identified on maps and have clearly defined boundaries and buffer zones and have had no prohibited inputs for the previous 36 months. Both organic and non-organic wild crops are to be listed on the Crop Summary section of the Farm Organic System Plan.**

**B. Do you have any non-organic wild crop production?**  No  Yes. List types of plants:

Describe measures taken to prevent organic wild crop production from contamination by prohibited substances:

Describe measures taken to prevent commingling of organic and non-organic wild crops:

HARVEST AREA I.D. (as on Field Plan)	LANDOWNER OR MANAGER OF AREA AND ADDRESS, IF DIFFERENT FROM FARM ADDRESS	DESCRIPTION OF HARVEST AREA	APPROX. ACREAGE	WILD CROP (ORGANIC OR NON ORGANIC)

If you do not own or manage the harvest areas, do you have evidence of permission to harvest?  No  Yes

Who is responsible for the harvest of wild crops?  Self  Other. Describe training:

C. Give the following information for each wild plant species to be harvested as organic:

PLANT NAME	PART OF PLANT HARVESTED	APPROXIMATE HARVEST DATES	PROJECTED ANNUAL QUANTITY HARVESTED

**SECTION 3 Minimizing Negative Environmental Impact**

NOS §§205.201, .207(b)

*The National Organic Standards require that wild crops shall be harvested in a manner that assures that harvesting will not be destructive to the environment and that growth and production of the wild crop will be sustained.*

Describe your harvesting practices, including any equipment used. Explain practices for each type of plant harvested:

What measures do you take to prevent depletion of the population of wild crops harvested and adverse impacts on biological diversity in these areas? Explain measures taken for each type of plant harvested:

What measures do you take to prevent soil erosion and other environmental disturbance in these areas? Explain measures taken for each type of plant harvested:

How do you monitor the effectiveness of these measures?

List any endangered terrestrial or aquatic plants or animals that occur in the harvest area.  None

**SECTION 4 Maintenance of Organic Integrity**

NOS §§205.103, .201, .202, .272

*The National Organic Standards require that no prohibited substances compromise the integrity of the organic wild crop harvesting system.*

**HARVEST, STORAGE, ON-FARM PROCESSING/HANDLING, TRANSPORTATION, MARKETING, SALES AND RECORD-KEEPING information about your wild crop operation must be included in your Farm Organic System Plan.**

*Return this form with the Farm Organic System Plan.*
